#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2833

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 USC 102(b) as being anticipated by Bommel et al (6,102,752).

The disclosure of Bommel provides a complete response to each and every element set forth in the claims. For example: Fig. 1-23 show an inner contact part 2 having an attachment part 6, a contact segment with a contact part having at least three contact lamellae such as 8, 9 each having at least one contact point (not labeled) and a center segment (4, 5), and a spring element 3.

As to claim 2, the contact lamellae are formed of fingers such as (8, 9) and connected to each other at one end (4).

As to claim 3, elements (25, 26) are read as the recited support elements.

As to claim 4, elements 24 are read as the recited lateral limiting elements.

4. Applicant's arguments filed 8/30/04 have been fully considered but they are not persuasive.

The proposed drawing corrections dated 8/30/04 are accepted. The objection of the specification under 35 USC 112 and the rejection of claims 1-4 under 35 USC 112 have been withdrawn. Regarding applicants remark's stated that "nowhere do Bommel et al disclose, or even support, an inner contact part having at least three contact lamellae as recited in claim 1". The Examiner disagrees. Figs. 13-15, 20 of Bommel et

Art Unit: 2833

al clearly show the inner contact part having at least three contact lamellae and the features are disclosed in column 5, lines 6-17. Also it is noted that the contact part with at least three contact lamellae are old and well known in the art.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication should be directed to Hein D. Vu at telephone number (571) 272-2016.
